Overview

A configurable architecture and a pay-as-you-go model with 24x7 live support, give your organization the flexibility to adapt to your growing needs

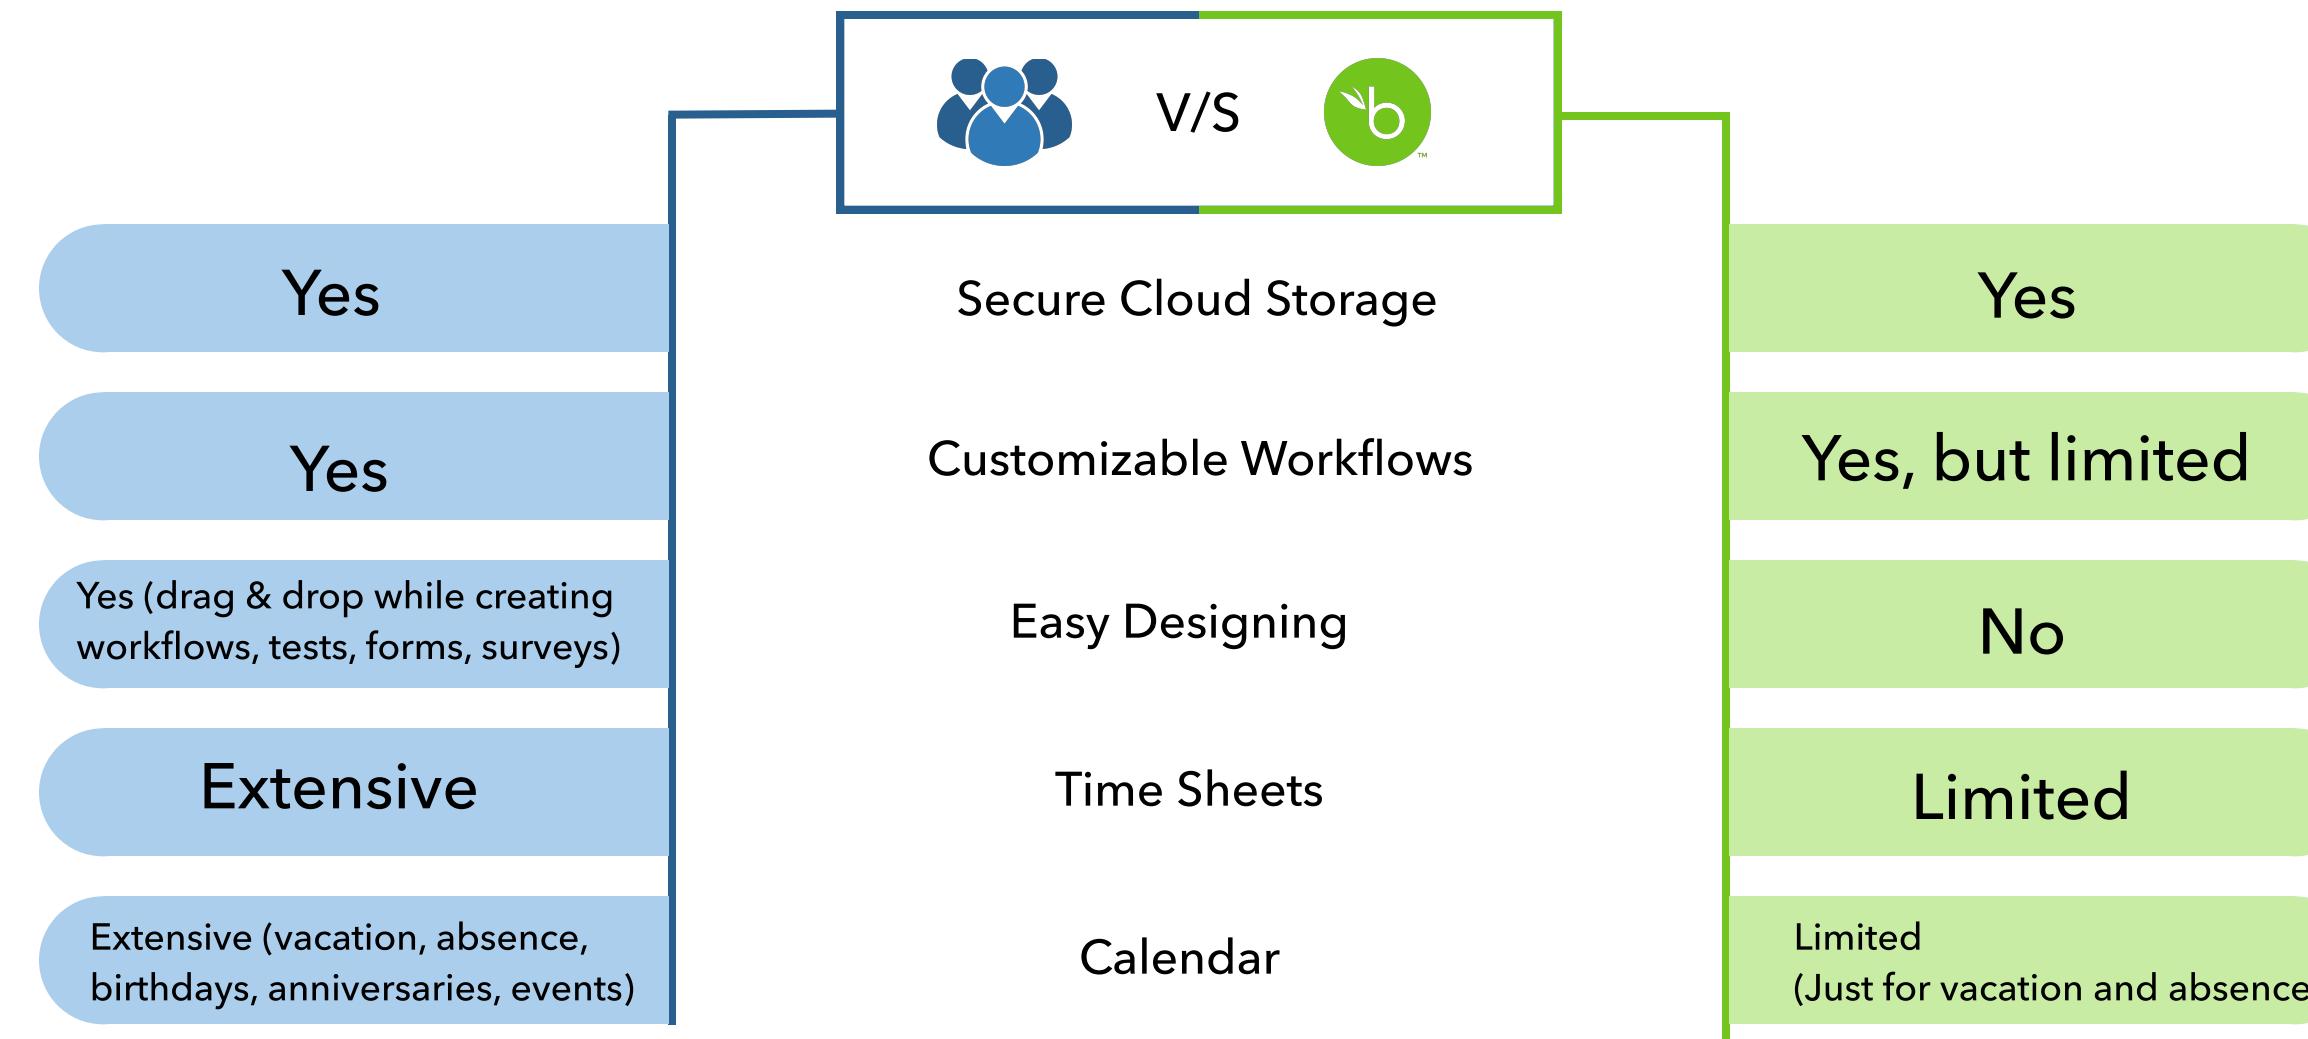

BizMerlinHR's robust integration capabilities:

Offers seamless native integrations across payroll, communication, project management, ATS, LMS, ERPs and CRMs.

Centralized Records and Customizable Processes

Use highly customizable workflows for common HR practices and maintain centralized records of documents, time sheets, and events - all in a secure cloud storage

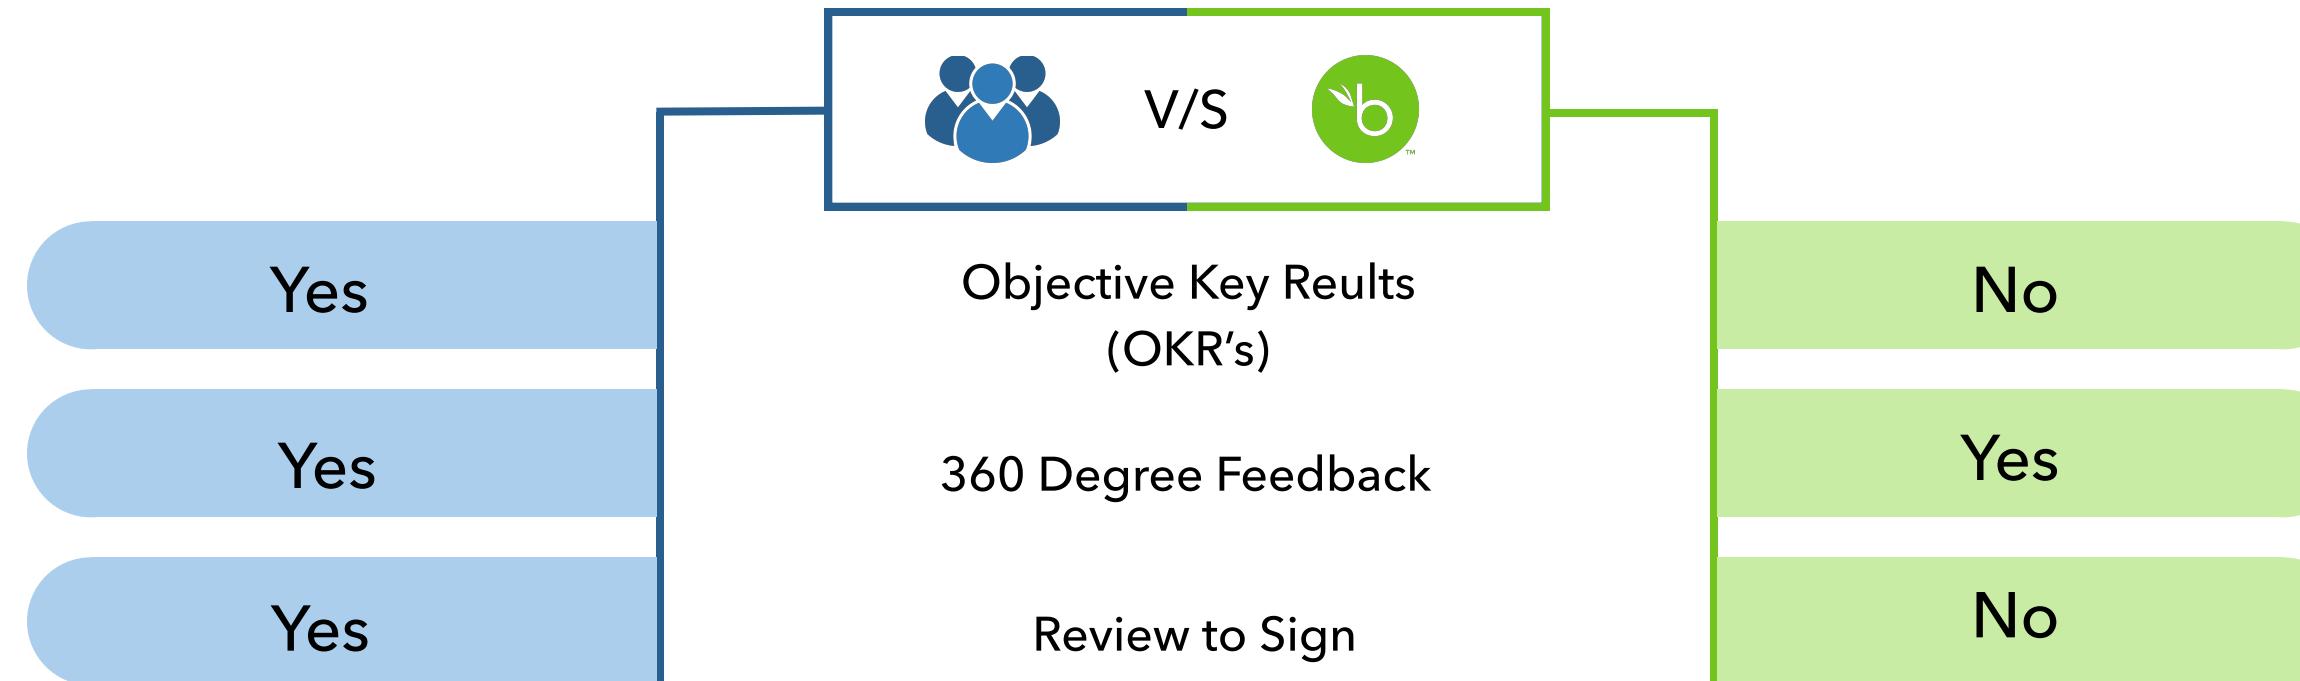

BizMerlinHR's ability to handle variations:

Offers customization of workflows and PTO policies tailored to different locations and/or departments. Useful for growing organizations.

Performance Management

Measure employee performance, unwrap the insights, and increase efficiency and growth

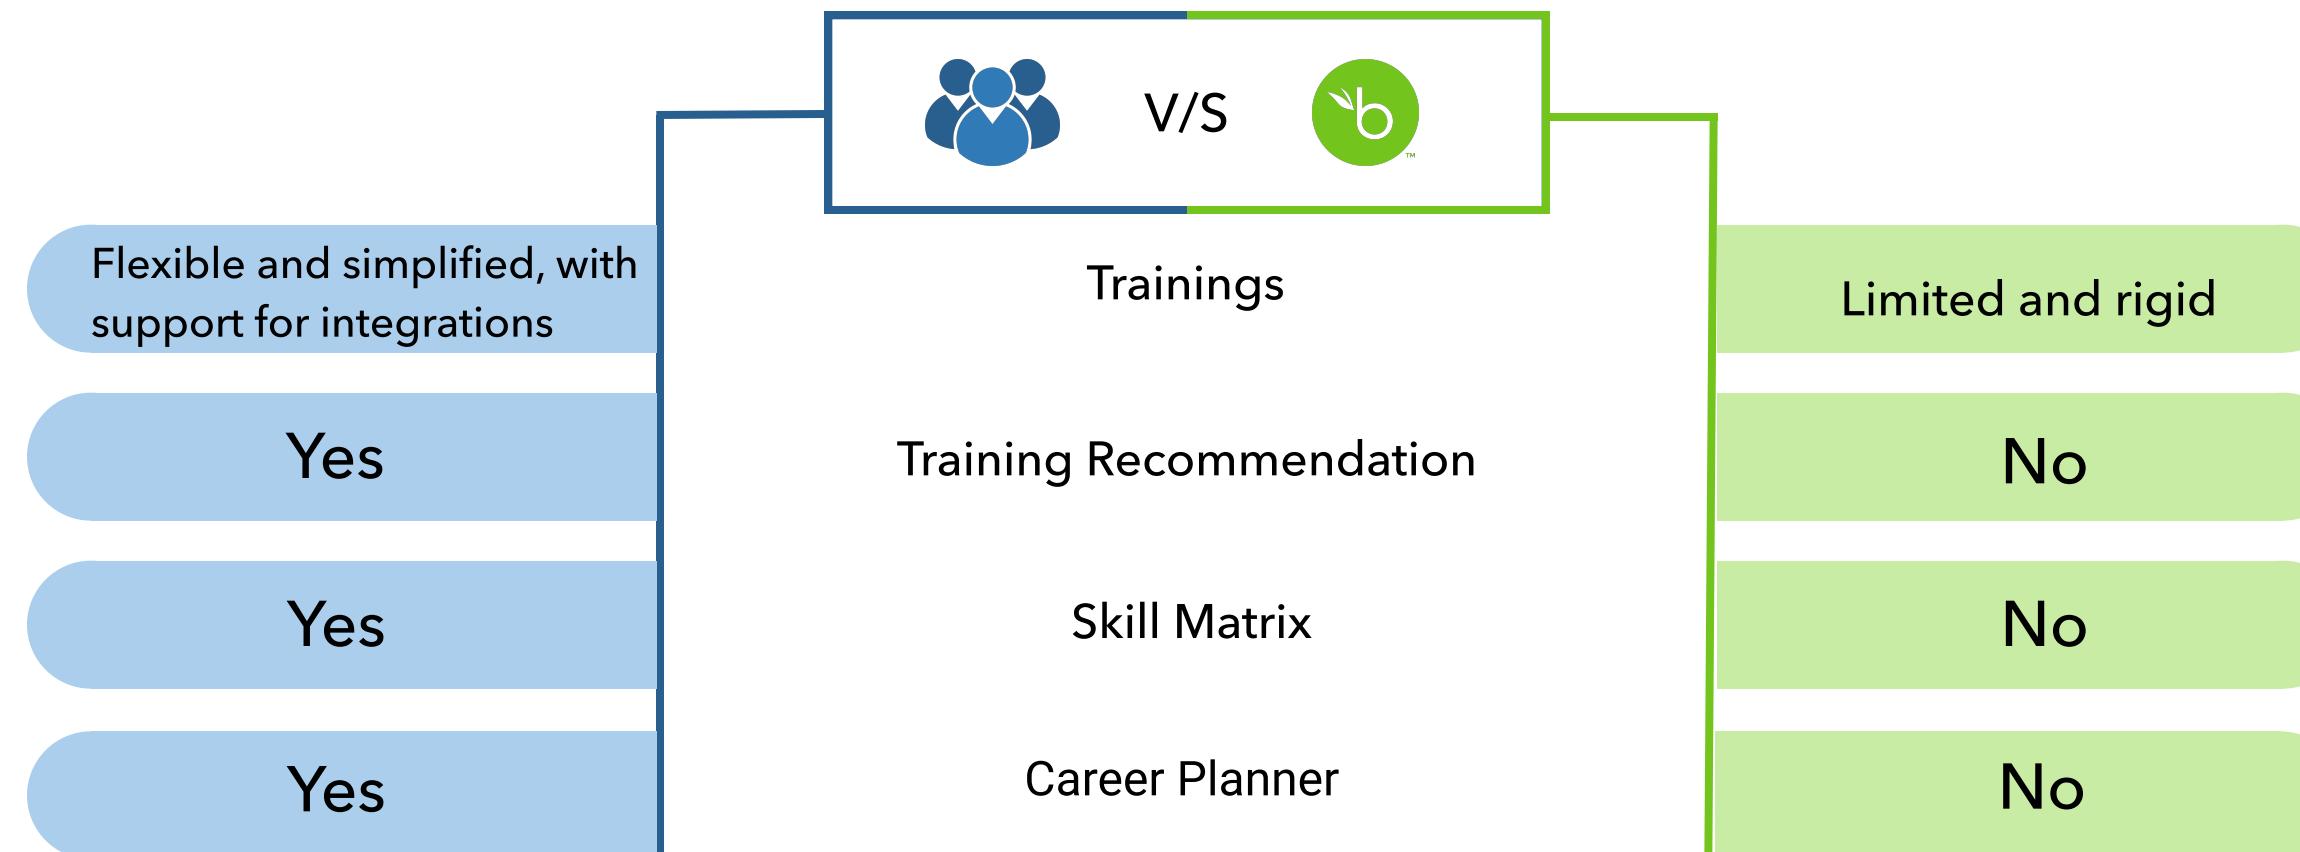

BizMerlinHR can support multiple performance review cycles at a time.

Skills Management and Career Planning

An LMS and an AI-powered recommendation system to manage employees' skills and growth within the organization

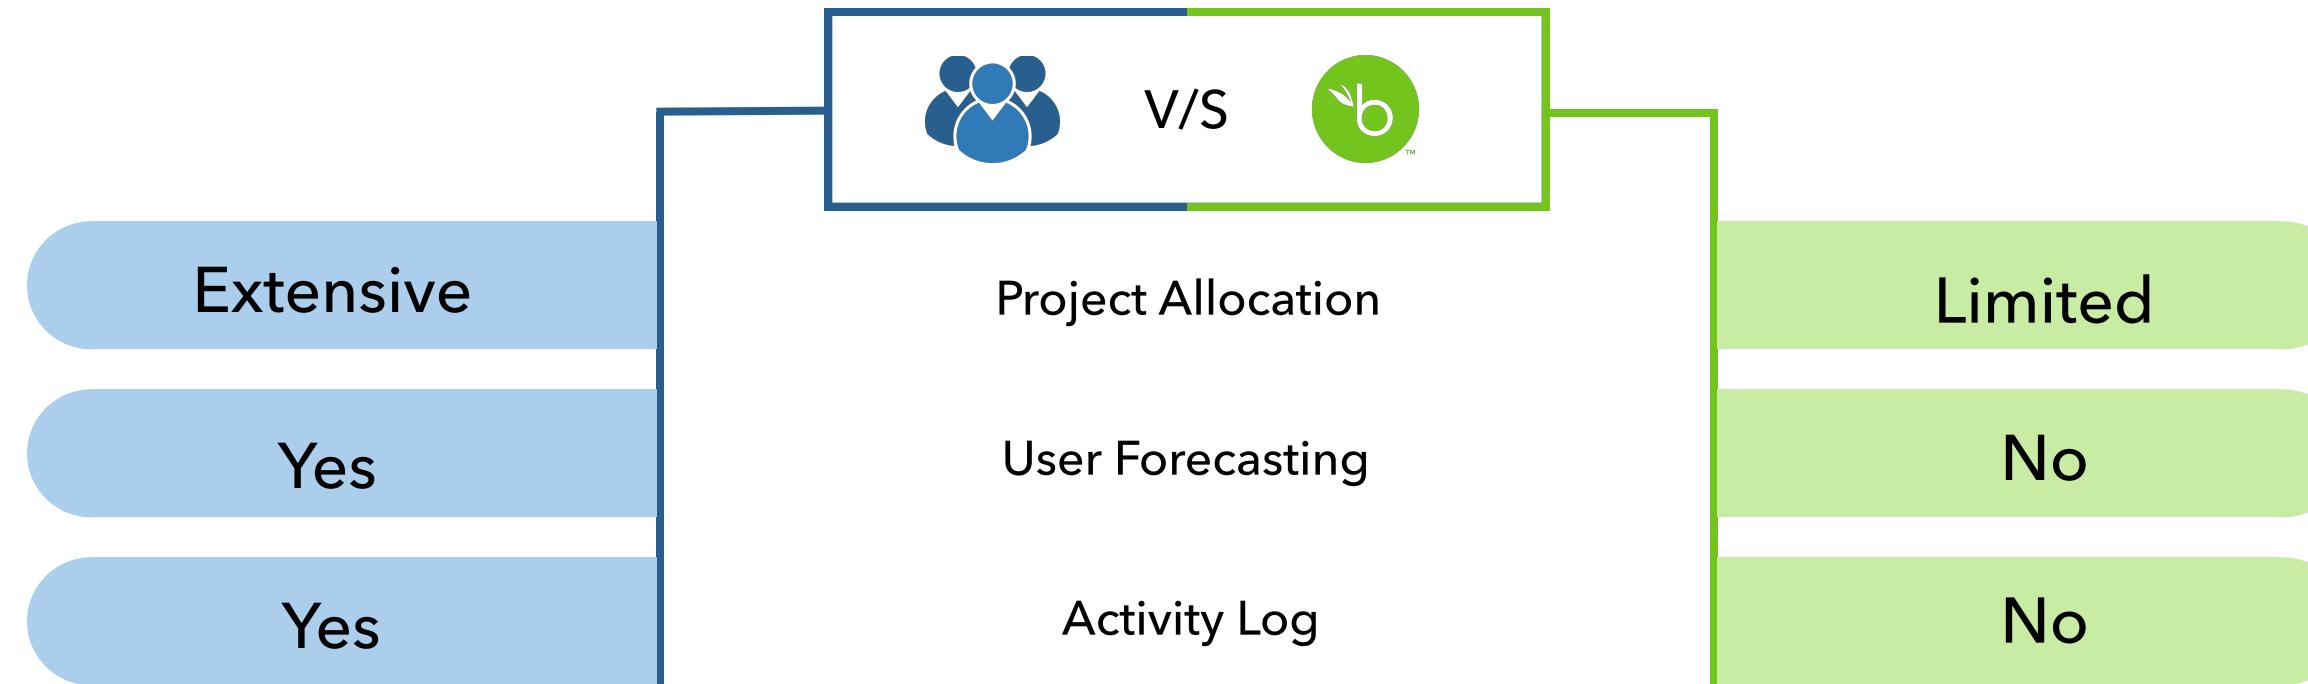

BizMerlinHR's AI-driven approach:

Based on employees' job profiles, the system automatically identifies gaps in skillsets and recommends appropriate trainings.

Project Allocation

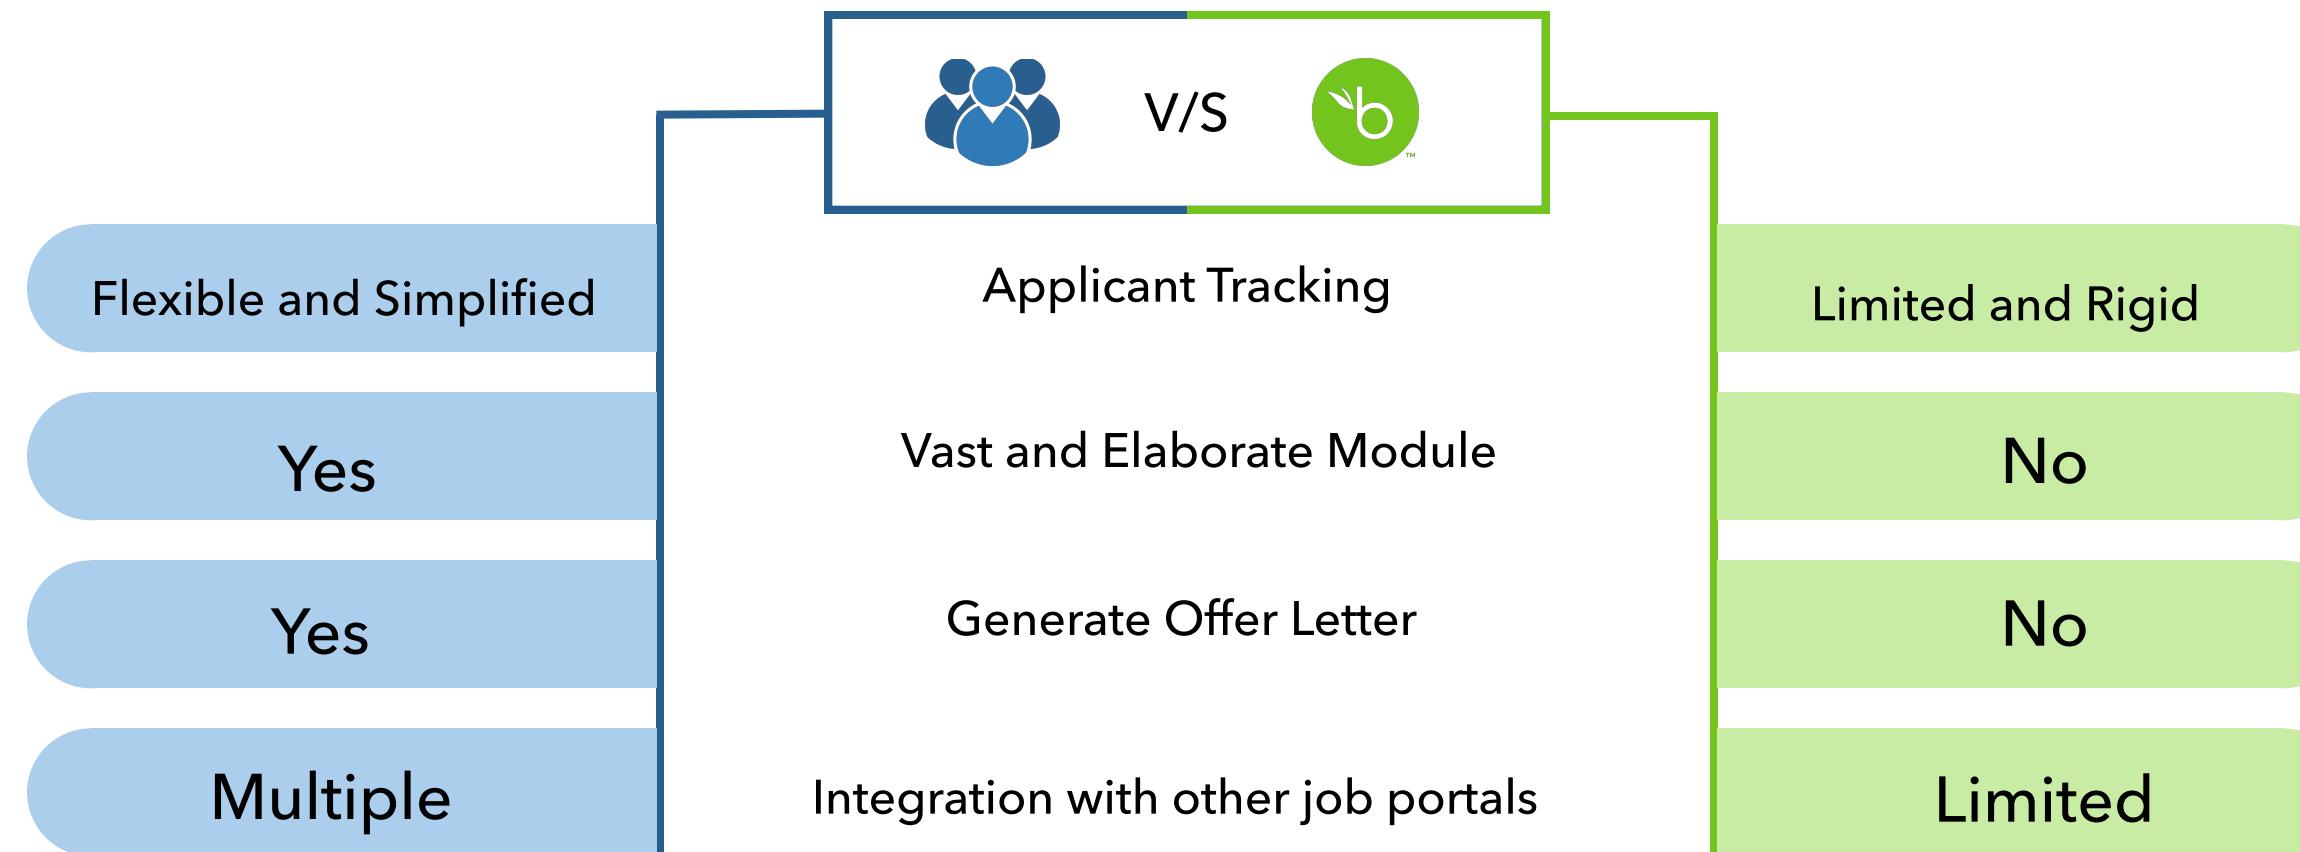

A robust forecast system to ensure you don't under/overutilize
your human resources

Talent Acquisition

An ATS for your end-to-end hiring process,
right from "Hi" to Hired

BizMerlinHR's comprehensive ATS offering:

Provides AI-driven applicant recommendations, automated notification system for each step of the hiring funnel, configurable job boards and job portal integrations, and customizable pre and onboarding experience for candidates.
